To whom it may concern,

St Paul Elementary School recently had Rock in Prevention present their training at our school. This was the fourth time we were able to have them come to our school, and every year has been just as enjoyable as the last!!

Each time they presented, they were highly energized and had a great message that the kids really responded to. Our students still use the statement, "We don't do that here" when responding to inappropriate behaviors and/or bullying situations. They have now added, "Do the right thing, at the right time" and "Self-control is how we roll". The music helps kids remember the message. Having the kids participate and move around gave additional meaning to the training.

The kids love getting their very own CDs to take home and we have had over an 80% response on the family activity pages. Any training that can be carried over to home is a success! If you ever have the opportunity to bring this training to your school, I suggest that you take advantage of it. Kids from kindergarten through sixth graders all enjoyed it, as well as all of our staff members!

Sincerely,

Brenda Starkey, Elementary Counselor

St. Paul Elementary School
