To Whom It May Concern:

I had the opportunity to invite Rock In Prevention to my school this year. They worked with the high school mentors and prepared an outstanding, interactive show for the students at Pence Elementary School. We did 2 assemblies, one for K-2 and one for 3-4 grades. The students enjoyed the assemblies immensely. Both groups of students participated and showed enthusiasm throughout the assembly. The teachers also enjoyed the messages that were being conveyed.

The amount of enthusiasm that was displayed from the Rock In Prevention staff as well as the high school mentors was amazing. There was some special encouragement happening to get high school students to act silly in front of that many students.

The Rock In Prevention staff started the assembly in an interesting way. Forming a tunnel with the high school students for our students to go through. My students loved it and it set a tone for the rest of the assembly. The staff of Rock In Prevention was able to get the students to participate in a fun and exciting way to promote "don't use drugs" and yet keep in control of the students.

I would like to have them come again and help with promoting a drug free school next year.

Sincerely,
Mr. Chuck Bengé
Pence Elementary School Principal
