To Whom It May Concern:

I had the pleasure to welcome the “Rock in Prevention” program back to South O'Brien Elementary School. My staff and students thoroughly enjoyed it and I would highly recommend this interactive and energetic program to anyone looking for a great assembly.

The two representatives with Rock in Prevention were well organized and interactive. Their music and role playing delivered the message to all of us with using the phrase “we don't do that here” in terms of bullying. They were engaged with the students and staff which made a fun experiences for everyone!

The students responded well to the messages that were shared about making good choices or encountering uncomfortable situations for both a PK-3<sup>rd</sup> grade program designed specifically for them as well as a 4<sup>th</sup>-6<sup>th</sup> program that reached out to that age group.

Some of our high school students participated by helping to mentor and role play with the students. These older students are such role models for our students and they helped keep things positive with the assembly. My students loved having the older kids here with us to enjoy the program.

The music was catchy and entertaining! It was also a great way for the students to interact through both the music and dancing! Music is a great way to help students remember the important messages.

The Rock in Prevention was a fun way to help students learn to care for themselves and for others. The program taught them what to say and do when someone is being bullied.

The kids loved getting their very own CD to take home to enjoy! I think it's great that they could share what they learned at home, too! Home involvement is always a plus.

Rock in Prevention is a great program to help students, parents and teachers work together to create a caring and bully-free community!

Thank you for a great educational opportunity and thank you for the great t-shirts that you gave as gifts to our staff!

Best regards,  
Mike Morran  
South O'Brien Elementary School Principal
